

45-49 year old Health Assessment SNAP SHOT questionnaire Feedback Form

1. The questions asked have been previously asked by someone else

All of them, some of them, none of them

1. The questions were asked in a non-judgemental way

All of them, some of them, none of them

2. The questions made me really think about my past and current health

Not at all, a little, a lot

3. I was not aware how in depth the health assessment would be

Agree, I didn't know, neither agree/disagree, disagree, I did know it would be

4. The nurse used my questionnaire answers to assist during the health assessment

All of them, some of them, none of them

5. The nurse discussed my motivation and barriers to assist me in understanding my health choices and strategies for my barriers

Not at all, a little, a lot

6. I felt heard, understood and supported by the nurse during my health assessment

Not at all, a little, a lot

7. I feel like the questionnaire allowed the nurse to spend more time with me on the important parts of the health assessment

Not at all, a little, a lot

8. I feel like if I didn't complete the questionnaire and the nurse had to ask all the questions during the assessment it would have left less time to discuss my health and what's important to me

Agree, neither agree/disagree, disagree

9. I would recommend to my family and friends to complete a SNAP SHOT questionnaire prior to their 45-49 year old health assessment

Agree, neither agree/disagree, disagree

10. I felt the SNAP SHOT questionnaire and the 45-49 year old health assessment was a waste of my time and my health needs were not addressed.
